benefits:

- GDS cost and dependencies reduction.
- Increase in transaction speed.
- Industry standard (ATPCO) and IATA).
- Discounts within the system.
- Easy to integrate with third parties.
- Easy to manage Backoffice with access to all pricing data.

Air Pricing low costs, accuracy and speed is an ideal solution to develop your commercial portfolio within the web or through other channels. Running in Microsoft Azure infrastructure ensures scalability with no system downturn (0%).

30 MM Fare request per day & carrier

* In test environment we have reached up to 6K transactions per second

Air Pricing platform

Air Pricing is a SaaS solution capable of calculating fare quotes in real time, bring clear
